

# JUNIOR TEAM TENNIS AGE DIVISIONS AND LEVELS OF PLAY

Placing your child at the proper tennis ability level increases their aptitude to develop and grow as a tennis player. The ball color and size of court may vary depending on what your child's age and level is but the key descriptors to determining ability doesn't vary between age levels. Please see Levels of Play chart to determine what level fits your child best. We recommend talking with a coach or facility coordinator if you feel your child is between levels. Or pick the level that the majority of boxes best describe your child.
